DOINGS OF CONGRESS.

The Mexican Pension Bill Still Under Discussion.

In the Senate, on Wednesday, the 11th inst., the session was occupied chiefly in the discussion of the consular and diplomatic appropriation bill in secret session, the special subject of discussion being the item appropriating \$250,000 to cover necessary expenses attendant upon the execution of the neutrality act. Mr. Vest (Mo.) characterized this item as extraordinary, and demanded to know the real purpose of the appropriation, but the chairman, Mr. Allison, declined to respond. A vote on the passage of the bill resulted ayes 34, nays 1, favor of the substitute. (no quorum,) and the Senate adjourned.

THURSDAY'S PROCEEDINGS.

In the Senate, on Thursday, the consular and diplomatic appropriation bill was passed by a vote of 38 yeas to 2 nays.

The Mexican pension bill was then taken up and Mr. Van Wyck moved as an amendment the bill some time since reported from the Pension Committee by Mr. Cullom, to provide | then resumed, but no action was taken. pensions for invalid soldiers and sailors who have been discharged from the army or navy after three months in the war of the rebellion, and increasing from \$8 to \$12 per month the deceased pensioners, and declaring that upon the | House insisted on its disagreement to the other Government shall bereafter be the burden of proving unsoundness at date of enlistment.

This led to a long and exciting debate. Mr. Sherman (O.) advocated an amendment removing the charge of desertion still standing

The | 000 for special mail facilities on trunk lines. money of the tax-payers should not be used to support able-bodied men. There were hundreds of thousands of people contributing to taxation who had hardly the necessaries of life. Mr. Van Wyck agreed that taxation was too high, but the Treasury was overflowing; one political party had just resolved to increase pensions, and he had no doubt the other party would in its turn pass a similar resolution. It was the judgment of the Nation, and we might as well good-naturedly assent.

It was maintained by several Senators that if the bill were thus amended it would not be likely to pass the House at this session, and by others that the amendments would increase the chances of its passage.

Mr. Ingalls (Kan.) moved, as a further amendment, Senate bill No. 1, providing that pensions for injuries received in the service since March 4, 1861, or disease contracted since that date shall commence from the date of death or discharge; and in the consideration of all claims for pensions the soldier on whose account the claim is made shall be conclusively presumed to have

Mr. Ingalis read from the plank of the platform of the recent Republican convention, pledging that party to a repeal of the limitation contained in the arrears of pension act. He was very glad, he said, that the Republican party had arrived at this conclusion, and at last, in unmistakable terms, declared itself

in favor of this principle. Mr. Ingalls now called on his party associates to carry out the expressed declaration of their party. As this question was to become, Mr. Ingalls said, a test as to which political party declaration of the Republican party was to be words "Provided, That said Fitz-John Porter

FRIDAY'S PROCEEDINGS.

In the Senate, on Friday, the chief subject of discussion was the House bill providing for the payment of the claims audited by the Treasury Department the past year by virtue of the act of July 4, 1864, for commissariat and quartermaster's supplies furnished to the army during the war. An amendment appropriating \$85,-556.17 to pay the claim of Julia Nutt, widow of Haller Nutt, a Union man, formerly a resident of Louisiana, whose house was occupied by General Grant and whose property was consumed by the Union armies, was adopted and the bill passed. The Senate then took up the act to refund the State of Georgia the sum of \$35,555.42 expended by her in the war for the Revolution, but without reaching any action on it, adjourned.
